Subject Index

Aphakia
Complications of aphakic extended wear lenses, 241
Extended wear of Softcon Vifilcon A lenses by aphakic patients, 327
Hydrophilic contact lenses in aphakia: Experience with geriatric patients, 141
Astigmatism
Epikeratophakia: The surgical correction of astigmatism, 61
Posterior chamber implants and post-operative refractive astigmatism, 229
CAB contact lenses
Use of CAB Soper Cone contact lenses in keratoconus, 237
Central nervous system
Effect of contact lenses on central nervous system activity, 146
Contac ns availability
On Contact lens availability (letter), 11
Contact lens cleaning solutions
Safety and effectiveness of Polyclens, 39
Contact lens fitting
Device for "first-fit" suggestions, 204
Nomogram for gas-permeable silicone acrylate lenses, 324
Contact lens flexure
Power change induced by soft contact lens flexure, 32
Contrast sensitivity
Contrast sensitivity changes in patients with giant papillary conjunctivitis associated with contact lens wear, 257
Corneal endothelium
Protection of the corneal endothelium during IOL surgery, 97
Corneal epithelium
Effect of contact lens wear on the mitoses of corneal epithelial cells, 133
The rabbit corneal epithelium after wearing hard and soft contact lenses, 267
Corneal warpage
Changes in corneal curvature with long-term PMMA contact lens wear, 121
Findings on follow-up of corneal warpage patients, 126
Cornea/Tear Film
A new method for measuring tears, 281
Ocular surface pH in rosacea, 333
Diagnostic tests
Diagnostic tests in keratoconjunctivitis sicca, 23
Editorial
Handling—It could be dangerous to your health, 6
IOL—The big questions, 198
Two aspects of IOL surgery, 298
Epikeratophakia
Epikeratophakia: The surgical correction of astigmatism, 61
Extended wear lenses
Bausch & Lomb "O" lenses for extended wear, 137
Complications of aphakic extended wear lenses, 241
Extended wear contact lenses in pediatric ophthalmology, 317
Extended wear of Softcon Vifilcon A lenses by aphakic patients, 327
Hydrophilic contact lenses in aphakia: Experience with geriatric patients, 141

Gas-permeable contact lenses
A Comparison of selected rigid gas-permeable contact lens material properties, 245
Nomogram for gas-permeable silicone acrylate lenses, 324
Use of CAB Soper Cone contact lenses in keratoconus, 237
Geriatric patients
Hydrophilic contact lenses in aphakia: Experience with geriatric patients, 141
Giant papillary conjunctivitis
Contrast sensitivity changes in patients with giant papillary conjunctivitis associated with contact lens wear, 257
Intracorneal implants
Stability of hydrogel intracorneal implants in non-human primates, 157
Intraocular lenses
Changing guidelines for lens implantation, 309
Ideal intraocular lens, 15
Ideal intraocular lens (letters), 204
IOL—The big questions (editorial), 198
IOL surgery: Resident's needs/patients' rights (editorial), 298
Posterior chamber implants and post-operative refractive astigmatism, 229
Power calculations for the style-30 (Sheets design) and other intraocular lenses, 102
Protection of the corneal endothelium during IOL surgery 97
Suture-facilitated rotation of IOL implants (letter), 303
Suture-facilitated rotation of the J-loop intraocular lens, 95
Keratoconjunctivitis
Meibomian keratoconjunctivitis: Oculo-dermal correlates, 130
Keratoconjunctivitis sicca
Diagnostic tests in keratoconjunctivitis sicca, 23
Keratoconus
Keratoconus: The Japanese experience, 254
Long-term wear of Polycon contact lenses in keratoconus, 57
Use of CAB Soper Cone contact lenses in keratoconus 237
Keratorefractive surgery
Epikeratophakia: The surgical correction of astigmatism, 61
Stability of hydrogel intracorneal implants in non-human primates, 157
Lens deposits
The genesis of organic deposits on soft contact lenses, 49
Lens deposits: A symposium, 163
Leonardo da Vinci
Leonardo da Vinci did not invent contact lenses, 313
Letters to the Editor
"First-fit" suggestions, 204
The ideal IOL, 204
On contact lens availability, 11
Suture facilitated rotation 303
Meibomitis
Meibomian keratoconjunctivitis: Oculo-dermal correlates, 130
Pediatric ophthalmology
Extended wear contact lenses in pediatric ophthalmology, 317
pH
Effects of pH and topical ophthalmic medications on the contact lens permalens, 43
Ocular surface pH in rosacea, 333
PMMA contact lenses
Changes in corneal curvature with long-term PMMA contact lens wear, 121
Findings on follow-up of corneal warpage patients, 126
Posterior chamber implants
Posterior chamber implants and post-operative refractive astigmatism, 229
Power calculations
Power calculations for the style-30 (Sheets design) and other intraocular lenses, 102
Power change
Power change induced by soft contact lens flexure, 32
Presbyopia
Stereopsis in anisometropically fit presbyopic contact lens wearers 322
President's Message
CLAO positions, 302
Looking forward, 8
New business, 84
Yellow Pages directory, 201
Rosacea
Ocular surface pH in rosacea, 333
Silicone acrylate lenses
Nomogram for gas-permeable silicone acrylate lenses, 324
Silicone elastomer contact lenses
Clinical experience with the silicone elastomer contact lens, Hisilic II, 249
Silicone resin contact lenses
Experience with a silicone resin (polymethylphenylsiloxane) hard contact lens, 261
Sodium hyaluronate
Protection of the corneal endothelium during IOL surgery 97
Soft contact lenses
Effect of contact lenses on central nervous system activity, 146
Effects of pH and topical ophthalmic medications on the contact lens Permalens, 43
The genesis of organic deposits on soft contact lenses, 49
Power change induced by soft contact lens flexure, 32
Specular microscopy
Protection on the corneal endothelium during IOL surgery, 97
Stereopsis
Stereopsis in anisometropically fit presbyopic contact lens wearers, 322
Tear measurement
A new method for measuring tears, 281
Topical ophthalmic medications
Effects of pH and topical ophthalmic medications on the contact lens permalens, 43
